S HOCKING for car jackers!

A 50,000 volt shock may seem harsh, but when it's legal and can save lives and assets, It's your best protection ever!

Car theft is an unfortunate commonplace feature of daily life-and has extended to the forceable theft of the owners vehicle while driving the car-CARJACKING! This new trend needs to be met with, and dealt with, rapidly, and with maximum efficiency.

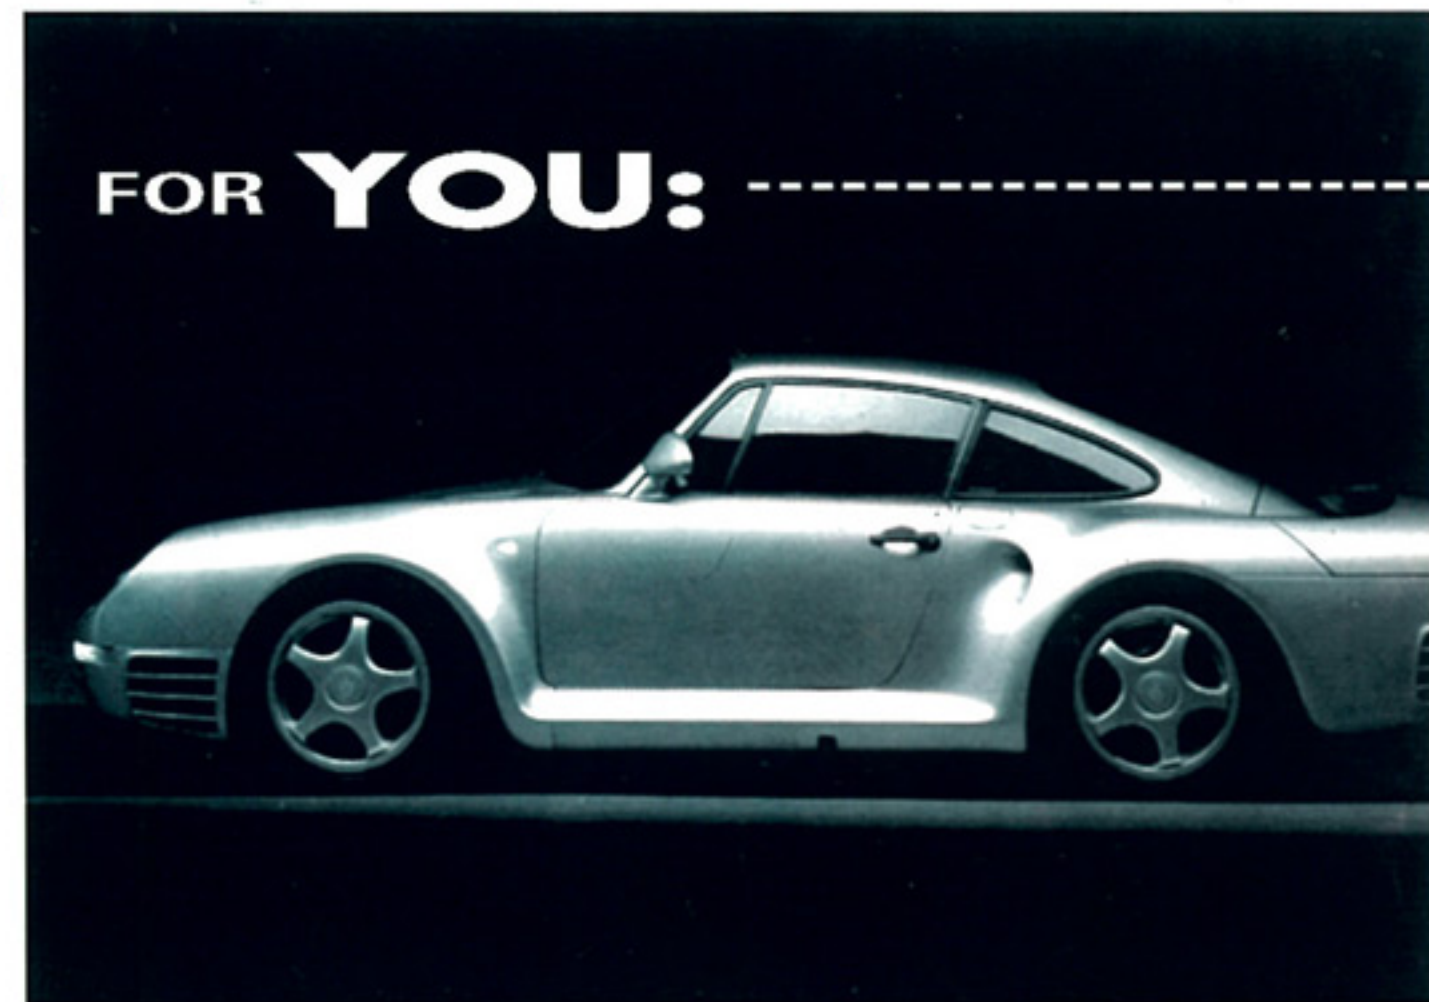

INTRODUCING:

- AUTOAVENGER- a revolutionary high-tech anti-carjacking system. Break away from ordinary alarms and tracking systems. Move to the NEXT generation in automobile protection technologies.
- AUTOAVENGER stops car theft where it starts-while driving or stationary.
- AUTOAVENGER has a distinct deterrent for thieves NOT to mess with your car, by immobilizing it when the car is completely stationary.
- AUTOAVENGER stops thieves getting away with your valuable car, saves time, energy and the hassle of lengthy insurance procedures. You may even be eligible for insurance rate rebates.
- AUTOAVENGER might also save your life! You can let car jackers drive off and AUTOAVENGER will fight on for you!
- AUTOAVENGER is an anti-theft system when your car is parked! It engages automatically everytime the engine is shut off for more than 10 minutes.
- AUTOAVENGER is totally compatible with other systems, if you wish to upgrade your protection.

HOW **AUTO** AVENGER **FIGHTS**

1. **PASSIVE ARMING:** With the engine running and the doors opened, it automatically arms the system. You don't have to worry about remotes, activators, or buttons to push, while under extreme stress. You reset it with a hidden switch.
2. **IMMOBILIZER SYSTEM:** with TIME-DELAY. Allows your car to be driven a safe distance from YOU, before automatically immobilizing the car (when the brakes are applied, the car comes to a full and complete stop). Secondly, it warns other drivers by blinking your brake lights.
3. **VOICE WARNING SYSTEM:** For the car jacker to "get out of the car" once inside the cabin or "face the 50,000 volt shock system that will activate in 15 seconds". Comes complete with countdown pie to buzzer.
4. **SECURE SMOKE SYSTEM:** Releases a stream of brightly colored smoke to further attract attention. This can help police identify your vehicle in a crowd.
5. **50,000 VOLT SHOCK SYSTEM:** The system is entirely safe and legal. You cannot shock yourself accidentally. Because of the very low amperage, the shock causes no permanent injury to the attacker/thief either. Supporting medical evidence available. Write to our office for details.
